
Made at Calgary, in the
Province of Alberta, on

April 22nd, 2026

ALBERTA ENERGY REGULATOR

Under sections 22, 27(3) of the *Oil and Gas Conservation Act (OGCA)*, sections 113 and 241 of the *Environmental Protection and Enhancement Act (EPEA)*, sections 1.120 and 3.012 of the *Oil and Gas Conservation Rules (OGCR)*, and section 23(2) of the *Pipeline Act*.

MAGA Energy Ltd.

900, 6th Ave S.W, Suite 900
Calgary, AB, T2P 3K2

(MAGA, or the Licensee)

WHEREAS MAGA is the holder of business associate code A8BA, and holds well, facility, and pipeline licences granted by the Alberta Energy Regulator (AER, or the Regulator) under the *OGCA*, and the *Pipeline Act* (Collectively, the Licences);

WHEREAS there is physical infrastructure associated with the Licences, including wells, well sites, facilities, facility sites, and pipelines (collectively, the Sites), and the Licensee is the operator of the Sites listed in Appendix 6;

Remediation Regulation

WHEREAS the Licences held by MAGA include those listed in Appendix 1 (the Specified Licences);

WHEREAS the Specified Licences have been used to produce, process, or transport oil, natural gas, produced water, condensate, and/or other materials (collectively, the Substances);

WHEREAS the Substances are a substance, as defined in section 1(mmm) of *EPEA*;

WHEREAS MAGA is a person responsible for the Substances, as defined in section 1(tt) of *EPEA*;

WHEREAS the AER records show that a known substance was released into the environment, at well licence W0003254, at 11-11-053-26W4 (the 11-11 incident), prior to the transfer of that licence to MAGA, and that the incident is filed under the contamination management file CSU03358 (the CSU03358 Site);

WHEREAS, on December 4, 2025, the AER issued an order to MAGA (the December Order) requiring the submission of an acceptable Remedial Action Plan (RAP) or a report demonstrating that no further remedial measures were required, in accordance with the *Guidelines* for the CSU03358 Site;

WHEREAS, on December 9, 2025, MAGA submitted a RAP, and upon review on January 19, 2026, the AER split the contamination management file CSU03358 into three files, CSU03358, CSU23722, and CSU27624, and requested resubmission of acceptable RAPs for each of those files;

WHEREAS, on March 10, 2026, the Licensee submitted RAPs for CSU03358 and CSU27624 that were deemed to be unacceptable upon review, and on April 14, 2026, the AER returned both submissions, requesting immediate resubmission of acceptable RAPs addressing the deficiencies noted; and as of the date of this Order, the Licensee has not submitted an acceptable RAP;

WHEREAS the 11-11 incident, managed under CSU03358, resulted in additional adverse effects to land adjacent to a wellsite with Licences W0005319 and W0003571, located within 14-11-053-26 W4M, and that contamination adjacent to the 14-11 wellsites has historically been managed under contamination management number CSU03513 (the CSU03513 Site);

WHEREAS, MAGA acquired Specified Licences W0005319 and W0003571 on June 4, 2024;

WHEREAS on August 27, 2024, MAGA submitted a Record of Site Condition (RoSC) and a RAP for the CSU03513 Site, as required by section 2.2(2) of the *Remediation Regulation*, which indicated that remedial measures would be completed by March 2, 2026 (14-11 Storm Pond);

WHEREAS, on March 2, 2026, MAGA failed to submit a RoSC form and accompanying environmental assessment report, confirming that remedial measures had been completed at the CSU03513 Site, within the period of time specified in the accepted RAP, and on March 9, 2026, MAGA informed the AER that excavation of the 14-11 Storm Pond area had not been completed due to financial difficulties;

WHEREAS on March 10, 2026, the AER issued a notice of noncompliance to MAGA for failing to take remedial measures specified in the accepted RAP for CSU03513 as required by section 2.2(5) of the *Remediation Regulation*;

WHEREAS, on March 13, 2026, an AER inspector inspected the CSU03513 Site to determine any remedial work related to contamination associated with the 11-11 Incident, and found no evidence of remedial work or any indication that excavation had recently occurred, or was underway for the CSU03513 Site (FIS # 561832);

WHEREAS the AER records show that a known substance was released into the environment at well licence W0004003 (02-26-052-26 W4M), which may have occurred before MAGA acquired the Specified Licence, and that the release is managed under contamination management file number CSU01197 (the CSU01197 Site);

WHEREAS, on March 14, 2024, a RAP for the CSU01197 Site was submitted to the AER by a previous licensee, outlining commitments to operate a groundwater treatment system starting in November 2025 and to submit an update on remedial measures by March 31, 2026;

WHEREAS on June 4, 2024, MAGA acquired the well licences for the CSU01197 Site, and assumed its regulatory obligations;

WHEREAS, on March 16, 2026, an AER inspector inspected the CSU01197 Site to determine any progress and overall status of remedial work related to contamination associated with the CSU01197 Site, and found no evidence that remedial work had recently occurred, or was underway, for the CSU01197 Site (FIS#561833);

WHEREAS, on March 31, 2026, MAGA failed to submit a remediation report confirming remedial measures at the CSU01197 Site within the specified timeframe, and on April 1, 2026, the AER issued a notice of noncompliance to MAGA with a deadline of May 1, 2026, to complete the remedial work;

WHEREAS the CSU03358, CSU27624, CSU03513, and CSU01197 Sites require remedial measures to manage and confine substances, prevent adverse effects, further adverse effects, and restore the environment within a specified timeframe, and the Licensee failed to fulfill these obligations;

Pipelines Concerns

WHEREAS, the December Order required MAGA to address multiple deficiencies, including those identified following two field inspections related to pipeline licences P61256 and P44844 (the Nonconforming Pipelines), which were inspected on January 13, 2025, at MAGA's Sites (FIS#550979 and FIS#550980);

WHEREAS MAGA failed to meet the inspection requirements of the Nonconforming Pipelines by the deadline of December 31, 2025, as outlined in the December Order, and on January 23, 2026, in accordance with section 22 of the *OGCR*, the AER imposed terms and conditions for the contraventions of *Pipeline Rules* regarding the Nonconforming Pipelines (the January Terms Letter);

WHEREAS the January Terms Letter required MAGA to discontinue, abandon, or return to active service the Nonconforming Pipelines by February 23, 2026, and to list any other pipeline segment licenced to MAGA that had remained inactive for 24 months or longer;

WHEREAS, on January 30, 2026, MAGA committed to discontinuing the Nonconforming Pipelines by February 23, 2026; however, as of the date of this Order, MAGA has failed to discontinue any segments for P61256 and has not discontinued two of the eight segments for P44844;

WHEREAS, MAGA did not notify the AER of any operational or field-related obstacles that would have prevented completion of the work prior to and including the February 23, 2026, deadline as outlined by the January Terms Letter;

WHEREAS on February 27, 2026, MAGA stated that two Nonconforming Pipelines have not been discontinued due to winter conditions that could pose hazards to completing the work, and MAGA anticipates beginning the work on April 18, 2026; the AER accepted the timeline extension to begin the work on April 18, 2026, due to safety concerns;

WHEREAS, the work required to discontinue segments 5 and 6 of P44844 and segments 1 and 2 of 61256 has remained unaddressed for an extended period;

WHEREAS, on January 14, 2026, MAGA reported that the pipeline licence P1162 segment 4 (P1162-4) as discontinued, and on March 3, 2026, the AER reviewed the discontinuation information related to P1162-4 and found several discrepancies, including incomplete cathodic survey data for inactive or discontinued pipelines, failure to disclose unmet requirements in the application as required by *Directive 056: Energy Development Applications and Schedules*, failure to report discontinuation to the AER within 90 days of completion, and failure to demonstrate that inactive pipelines are managed in accordance with section 8.4.1 of MAGA's Integrity Management Program Manual (IMP) (FIS#561466);

WHEREAS, on March 3, 2026, the AER also reviewed the documentation for licence 51753, segment 1 (P51753-1), and found multiple discrepancies related to P51753-1, including a lack of documentation that shows the inactive pipelines are managed according to MAGA's Hazard Identification and Mitigation Programs and the IMP (FIS#561467);

WHEREAS, on March 6, 2026, an AER inspector inspected P1162-4 and found that the pipeline segment was not physically isolated or disconnected from facility piping and was not plugged or capped by mechanical or welded means, and the cathodic protection system was inoperable despite being reported as discontinued on January 14, 2026, by the Licensee (FIS#561651);

WHEREAS section 75(c) of the *Pipelines Rules* requires that discontinued pipelines be protected effectively against external corrosion by maintaining effective cathodic protection; however, on February 27, 2026, MAGA indicated that they would focus cathodic protection only on operating lines, despite having a high pipeline-inactive inventory, MAGA has not been able to demonstrate effective cathodic protection for the discontinued pipelines through maintained cathodic protection survey;

Pipelines Audits

WHEREAS on February 27, 2026, MAGA identified 134 inactive pipelines to be discontinued, abandoned, or returned to active service by October 31, 2026, as required in the January Terms Letter;

WHEREAS the AER records indicate that since January 1, 2026, MAGA has reported 55 inactive pipelines as discontinued, and on March 03, 2026, the AER randomly audited several discontinued pipeline applications (#33886159, #33839067, and #33838534) to verify MAGA's compliance with Section 4.8 of *Directive 056*; (the D056 Audit);

WHEREAS a review of the D056 Audit revealed several discrepancies within the application and the audit submission, including but not limited to failure to submit the pipeline discontinuance application within 90 days of completing the discontinuance, failure to disclose that the pipelines were discontinued as a pipeline system, and failure to discontinue the pipelines in accordance with the requirements of *Directive 056* and the *Pipeline Rules*;

Directive 013: Suspension Requirements for Wells

WHEREAS on January 27, 2025, the AER requested that MAGA achieve and maintain compliance with *Directive 013: Suspension Requirements for Wells*, and on February 25, 2025, June 2, 2025, and July 21, 2025, the AER reiterated its *Directive 013* obligations, given MAGA's high inactive well inventory;

WHEREAS on December 28, 2025, MAGA had 33 *Directive 013* non-compliant wells; and on January 19, 2026, MAGA submitted a plan to demonstrate that reasonable care and measures are being provided at its Sites (the RCAM Plan), in which it committed to meeting *Directive 013* requirements;

WHEREAS, on January 23, 2026, the AER raised concerns about the RCAM Plan, noting that noncompliant wells had increased to 90 despite MAGA's commitments, and as of the date of this Order, MAGA has 102 noncompliant wells; see Appendix 2 for details;

Field Concerns

WHEREAS the December Order requested a plan to improve MAGA's satisfactory field inspection rating to at least 75% or higher; however, despite this request, its satisfactory three-year field inspection rating is 50%, which is below the industry average during the same period of 73%;

WHEREAS on December 22, 2025, January 19, 2026, and February 10, 2026, MAGA stated it would achieve a satisfactory field inspection rating of 75% or higher in 2026; however, since January 1, 2026 the AER has conducted 15 inspections, at MAGA's Sites, and only 5 inspections resulted in satisfactory results, leading to a 33% compliance rate so far for 2026;

WHEREAS on December 22, 2025, MAGA submitted an RCAM Plan stating that all low-risk noncompliance issues would be addressed within 14 days or as directed by the inspector; however, since then, the deficiencies identified on 7 inspections have exceeded the 14-day period and remained unresolved;

WHEREAS between January 13, 2025, and April 13, 2026, the AER conducted inspections of MAGA Sites and identified multiple deficiencies that the Licensee was required to address; see Appendix 3;

WHEREAS, AER records indicate that MAGA has 8 open inspections, with eight having passed their deadline, and as of the date of this Order, the Licensee has not taken the necessary actions to meet the requirements to the satisfaction of the AER;

Additional Noncompliances

WHEREAS the December Order required MAGA to fully abandon four wells within sixty calendar days from the date it was issued (by February 2, 2026), due to failure to hold mineral rights for the wells listed in Appendix 4 (the MLE Wells);

WHEREAS on December 11, 2025 and December 19, 2025, the Licensee submitted a request to the AER to apply accrued interest on its security to outstanding obligations, including levies and the MLE

Wells and on January 8, 2026, the Licensee stated that its ability to complete the MLE abandonments in early 2026 is entirely contingent upon the AER releasing funds from accrued interest;

WHEREAS on December 11, 2025, the AER advised MAGA that accrued interest could not be accessed for the outstanding levies but if they wanted to submit a request for a security refund they could do so by submitting a written refund request under *Directive 068: Security Deposits* to access these funds, and on March 5, 2026, the AER reiterated that all security-related inquiries must follow the standard process outlined in *Directive 068*;

WHEREAS, the SDM had previously advised MAGA - first at the November 14, 2025, pre-issuance meeting and again in its December 19, 2025, submission responding to MAGA's stay request – that, if MAGA wished to further explore how the AER applies interest on security, it could initiate broader discussions with AER executives; and, that those discussions would be separate from, and would not affect, these enforcement actions with respect to MAGA;

WHEREAS on January 23, 2026, the AER informed the Licensee that MAGA is obligated to remain in compliance with all applicable rules and regulations irrespective of funding, financial commitments, or other such concerns;

WHEREAS on February 2, 2026, MAGA failed to abandon the MLE Wells, and on February 3, 2026, the AER issued a Failure to Comply letter requesting that its obligations be addressed immediately;

WHEREAS, on January 15, 2025, and February 14, 2025, the AER identified additional noncompliant wells with the mineral rights expiry, and the AER issued a notice of noncompliance for the Well licences W0070945 and W0220932 (the Additional MLE Wells), followed by failure to comply letters for not meeting the requirements of the Additional MLE Wells;

WHEREAS, as of the date of this Order, MAGA has not met the MLE Well requirements specified in the December Order or for the Additional MLE Wells; see Appendix 4 for details;

WHEREAS, MAGA did not meet the 2024 Mandatory Closure Spend Quota (MCSQ), reporting only 11% of its target, and on October 13, 2025, MAGA submitted a payment plan, proposing minimum monthly payments of \$100,000 from December 31, 2025, through December 2026 to fulfill its 2024 MCSQ obligations;

WHEREAS, since December 31, 2025, MAGA has failed to make any payment as indicated in the October 13, 2025, commitment, and remains noncompliant with the 2024 MCSQ requirements;

WHEREAS, on October 13, 2025, MAGA submitted a cash flow forecast committing to meet its 2025 MCSQ by allocating closure funds from October to December 2025; however, on January 21, 2026, MAGA informed the AER that it did not meet the 2025 MCSQ due to negative operating cash flow, reporting only about 40% of the target;

WHEREAS the December Order required MAGA to pay the outstanding Administrative Fee balance of \$126,221.09 and the outstanding Orphan Fund Levy balance of \$377,055.61 by its proposed deadlines of December 15, 2025, and December 28, 2025, respectively (the AER debt);

WHEREAS, MAGA failed to pay the AER debt by the specified date in the December Order, and as of this date, the outstanding balance remain unpaid;

WHEREAS, on July 29, 2025, and October 31, 2025, the AER issued notices of noncompliance to MAGA for failing to submit a Site-Specific Liability Assessment (SSLA) for contamination file numbers CSU02241 and CSU26283, in accordance with sections 7 and 9 of *Directive 011: Estimated Liability*; see Appendix 5 for details;

WHEREAS, on February 11, 2026, and March 23, 2026, the AER issued failure-to-comply letters for the outstanding SSLA for CSU02241 and CSU26283, and as of the date of this Order, MAGA has not fulfilled the SSLA requirements for CSU02241 and CSU26283;

WHEREAS the AER ordered the Orphan Well Association (OWA) to undertake reasonable care measures, including abandonment and reclamation, at sites where MAGA holds a working interest participant (the WIP Sites);

WHEREAS, between March 2025 and February 2026, the AER notified MAGA that the OWA had completed closure activities at the WIP Sites and MAGA was required to pay the \$94,437.71 balance (the OWA debt) by March 22, 2026;

WHEREAS, on March 22, 2026, MAGA failed to pay the OWA debt, and as of the date of this Order, the OWA debt remains unpaid;

Holistic Licensee Assessment

WHEREAS under section 2 of AER *Directive 088: Licensee Life-Cycle Management*, the AER will comprehensively assess a licensee (the Holistic Licensee Assessment, or HLA) to inform regulatory decisions regarding the capability of a licensee to meet its regulatory and liability obligations throughout the energy development life-cycle;

WHEREAS, in October 2024, the AER completed an HLA of MAGA and found that MAGA was at risk of not meeting its end-of-life obligations, and on January 27, 2025, the AER issued a Notice of Intent to Request a Closure Plan to perform additional closure activities beyond the 2025 MCSQ obligation to reduce its inactive liability (the January Letter);

WHEREAS, on February 21, 2025, MAGA responded to the January letter and submitted a recovery plan with commitments to increase production and generate revenue to cover closure costs, thereby reducing the risk outlined in the January Letter;

WHEREAS MAGA failed to fulfill the commitments of the Recovery Plan, and since then, MAGA's risk of meeting its end-of-life obligations has increased, along with inactive liabilities rising from 66% to

approximately 82%, and its non-abandoned inactive well inventory has grown from 83% to approximately 89%;

WHEREAS the AER has been aware that MAGA has outstanding debts to Municipalities, and due to the outstanding balance, on March 31, 2025, the AER imposed Focus Refer status to the Licensee, which requires that applications regarding well licence transfers or new well applications will be reviewed through a nonstandard process;

WHEREAS on June 23, 2025, the AER determined the Licensee posed an unreasonable risk due to failing to meet its 2024 MCSQ, and the AER restricted MAGA's licence eligibility to limited, which prohibits the Licensee from acquiring any well, facility, or pipeline licences, either through transfers or applications;

Director's Assessment

WHEREAS Jon Keeler, Director, Field Operations, Oil Sands Mining (the Director), has the authority to issue orders under the *OGCA, OGCR, EPEA, and Pipeline Act*;

WHEREAS, due to the unaddressed Municipal taxes, the outstanding balance regarding the MCSQ, the AER debt, the OWA debt, and the multiple communications from the Licensee indicating its financial challenges, the Director is of the opinion that MAGA's financial capabilities have deteriorated since January 2025;

WHEREAS MAGA's failure to meet its commitments, milestones, and adhere to timelines raises concerns about the Licensee's ability to continue operating while remaining compliant with regulatory requirements and fulfilling its end-of-life obligations;

WHEREAS, the Director believes that MAGA does not have the capacity to fulfill its regulatory and liability obligations throughout the energy development lifecycle;

WHEREAS, based on the contraventions outlined above, the Director believes that it is necessary to suspend MAGA's wells, facilities and pipelines in order to protect the public or the environment;

WHEREAS, based on the above contraventions, the Director believes it is necessary and appropriate to impose terms and conditions regarding those contraventions;

WHEREAS the Director believes that the execution of closure work is necessary to abandon the MLE Wells listed in Appendix 4, in accordance with section 3.012 of the *OGCR*;

WHEREAS the Director believes that the release of a Substance into the environment has occurred, and the Substance has caused, is causing, or may cause an adverse effect, and remedial work is required to mitigate adverse effects, including on the release Sites and surrounding areas affected by the released Substances;

Therefore, I, Jon Keeler, Director, Field Operations, Oil Sands Mining, (the Director), do hereby order the following:

Suspension of Operations:

1. **No later than fourteen (14) calendar days** from the date of this Order, all wells and facilities listed in Appendix 6 must be suspended in a safe manner that is acceptable to the AER, and the status of the wells updated in the appropriate AER system.
 - a. All wells and facilities must be shut in and secured, equipment must be turned off, and MAGA must verify there are no leaks.
 - b. MAGA must verify that lease identification signs are correct, and the 24-hour emergency number is posted, and will initiate immediate action when called.
2. **No later than fourteen (14) calendar days** from the date of this Order, all remaining active pipelines shall be discontinued following safe industry practices and in accordance with the *Pipeline Act* and the *Pipeline Rules*.
 - a. MAGA must verify that all cathodic protection systems remain operational **within thirty (30) calendar days of this Order**, and that all risk assessment, integrity management, operations, and maintenance records are maintained and retained.
 - b. MAGA must purge and isolate all pipelines.
3. **No later than fourteen (14) calendar days** from the date of this Order MAGA shall ensure that all containment devices or equipment (such as tanks, vessels, lease piping, sumps, drains, tubs, containers, pits and containment rings) are depressurized, emptied, and rendered safe, with all fluids removed from the site and disposed of in a manner acceptable to the AER.
4. Any hazards on the Sites that present a risk to public safety, or the environment must be immediately reported to the AER and addressed in a manner and timeframe acceptable to the AER.
 - a. MAGA must confirm in writing that the above suspensions and discontinuations have occurred, and all containment devices have been emptied, **no later than fourteen (14) calendar days** from the date of this Order.

Terms and Conditions:

5. For the CSU03513 Site, MAGA must:
 1. Commence remedial measures at the CSU03513 Site to address contamination associated with the 11-11 incident.
 - a. **Within thirty (30) calendar days** of this Order, MAGA shall submit an acceptable Remediation Report and RoSC that meet the requirements of the *Guidelines*, demonstrating that remedial measures are underway and effectively preventing further

adverse effects in accordance with the commitments in the previously submitted and accepted RAP.

6. For the CSU01197 Site, MAGA must:
 - a. Commence remedial measures at the CSU01197 Site.
 - b. **Within thirty (30) calendar days** of this Order, MAGA shall submit an acceptable Remediation Report and RoSC that meet the requirements of the *Guidelines*, demonstrating that remedial measures are underway and effectively preventing further adverse effects in accordance with the commitments in the previously submitted and accepted RAP.
7. **Within fourteen (14) calendar days** of this Order, MAGA must submit acceptable RAPs that address the deficiencies identified by the AER for CSU03358 and CSU27624.
8. **Within fourteen (14) calendar days** of this Order, MAGA must discontinue all pipeline segments of P1162-4 and P51753-1, in accordance with the *Pipeline Rules*.
9. MAGA must meet the discontinuation of the Nonconforming Pipelines (P61256, P44844), as per its commitment on February 27, 2026, in which it stated that work would have commenced on April 18, 2026;
10. MAGA must submit monthly progress reports, starting the first Monday of each month. The reports should cover the discontinuation of the 134 inactive pipeline segments identified by MAGA on February 27, 2026, and demonstrate that the plan is on schedule and that the Licensee is meeting timelines and milestones.
11. **Within thirty (30) calendar days** from the date of this Order, MAGA must submit a detailed action plan with timelines to bring all noncompliant inactive wells (listed in Appendix 2) into compliance with *Directive 013* requirements.
12. **Within thirty (30) calendar days** from the date of this Order, MAGA must resolve all outstanding noncompliance related to each field inspection listed in Appendix 3, unless otherwise indicated by the AER. MAGA will follow up in the DDS system and resolve issues to the satisfaction of AER inspectors.
13. **Within Sixty (60) calendar days** from the date of this Order, MAGA must fully complete the abandonment (downhole and surface abandonment) of the MLE Wells and the Additional MLE Wells listed in Appendix 4.
14. **Within fourteen (14) calendar days**, MAGA must pay the outstanding Administrative Fee balance of \$126,221.09 and the outstanding Orphan Fund Levy balance of \$377,055.61.
15. **Within fourteen (14) calendar days** from the date of this Order, MAGA must submit an updated site-specific liability assessment for the 02-35 SSLA and 01-22 SSLA sites, listed in Appendix 5.

Security

16. **Within fourteen (14) calendar days** from the date of this Order, MAGA must post a security deposit in accordance with the terms of *Directive 068: Security Deposits* for the outstanding 2024 MCSQ security as determined by the AER; the amount is available through ComplianceVerification@aer.ca
17. **By May 15, 2026**, MAGA must post a security deposit in accordance with the terms of *Directive 068*: for the outstanding 2025 MCSQ security as determined by the AER; the amount is available through ComplianceVerification@aer.ca
18. MAGA shall confirm to the Director in writing when the security deposits have been posted.

Other Requirements

19. By October 31, 2026, MAGA must discontinue all its inactive pipelines that have been inactive for 24 months or longer and must also adhere to the deadlines and milestones outlined in the Plan submitted by MAGA on February 27, 2026.

Reactivation Terms and Conditions

20. MAGA may not reactivate its Sites without the Director's written approval.
21. Prior to the Director considering a request to reactivate the Sites, MAGA must fully comply with the requirements in clauses **1 to 18 of this Order and submit a Reactivation Plan.**
22. At a minimum, the Reactivation Plan must include detailed actions and timelines:
 - a. Verify the integrity of its wells and facilities,
 - b. Verify the integrity of its pipelines,
 - c. Safely reactivate the Sites,
 - d. Provide reasonable care and measures for the Sites, and e. Improve field performance once the Sites are reactivated.
23. MAGA must implement the Reactivation plan as approved by the Director.

General and Reporting

24. Unless otherwise indicated, all information required in this Order should be submitted to ComplianceAssurance@aer.ca and to the Director at Jon.Keeler@aer.ca.
25. MAGA must submit a monthly written progress report, beginning **seven (7) calendar days** from the date of this Order until otherwise directed by the AER.

26. All submissions required to comply with this Order must be made in the format and to the applicable AER system, as required by AER regulations or the Director.
27. Where a deadline or reporting frequency has been specified in this Order, the Director may authorize in writing a different deadline or frequency as applicable. Requests for extensions to deadlines must be made in writing to the Director prior to the deadline.
28. If requested by the Director, MAGA shall submit, within two (2) business days, any records or information pertaining to this Order.
 2. In carrying out the requirements in this Order, MAGA shall obtain and comply with all required federal, provincial, or municipal permits and governing legislation and provide to the AER all authorizations obtained upon request by the AER.
 3. All applicable regulatory requirements are to be followed and complied with in the undertaking of any actions or directions prescribed in this Order.
 4. Failure by MAGA to fulfill the requirements in this Order to the satisfaction of the Regional Coordinator may result in a further enforcement response

Dated at the City of Calgary in the Province of Alberta, the 22nd day of April 2026.

<original signed by>

Jon Keeler, MBA, P.Eng.
Director, Field Operations
Alberta Energy Regulator

In complying with this Order, the party or parties named must obtain all approvals necessary, notwithstanding the above requirements.

This Order in no way precludes any enforcement actions being taken regarding this matter under the *OGCA, OGCR, EPEA, and Pipeline Act* or any other provincial or federal legislation, or by any other regulator with jurisdiction.

Under the *Responsible Energy Development Act*, an eligible person may appeal decisions that meet certain criteria. Eligible persons and appealable decisions are defined in section 36 of the *Responsible Energy Development Act* and section 3.1 of the *Responsible Energy Development Act General Regulation*. If you wish to file a request for regulatory appeal, you must submit your request according to the AER's requirements. You can find filing requirements and forms on the AER website, www.aer.ca, under Applications and Notices: Regulatory Appeal Process.

Appendix 2: *Directive 013* Noncompliance Well Licence List

Noncompliance Details	Well Licence Number
Downhole operation not reported on Medium or High Risk Well/Inactive greater than 10 years	0004546, 0016179, 0042571, 0090245, 0099848, 0111687, 0146471, 0163516, 0164458, 0169189, 0195618, 0214148, 0215255, 0221328, 0233146, 0255938, 0369019, 0374131, 0440600
Downhole operation not reported on Medium or High Risk Well/Inactive greater than 10 years/Inspection is overdue	0003188, 0006150, 0058856, 0094604, 0208090, 0213817, 0221022, 0250959, 0251626, 0308509
Downhole operation not reported on Medium or High Risk Well/Inspection is overdue	0196701, 0239043
Inactive for greater than 10 years	0081702
Inspection is overdue	0002654, 0002992, 0003116, 0003189, 0003502, 0003572, 0003598, 0003640, 0003733, 0003922, 0004490, 0004772, 0006087, 0008267, 0012783, 0016017, 0016131, 0021739, 0034357, 0035721, 0075094, 0076820, 0110776, 0127592, 0166584, 0184368, 0203108, 0214231, 0214621, 0214631, 0215438, 0219753, 0226819, 0238643, 0239848, 0243609, 0252349, 0263444, 0296624, 0297564, 0308063, 0340156, 0369791, 0369792, 0372671, 0391969
Inspection is overdue/Inactive Well reported as reactivated	0002346, 0003921, 0214230, 0222807, 0342136
Suspension not reported for the current inactive period	0003387, 0003486, 0004009, 0004207, 0004451, 0004502, 0005197, 0019733, 0021416, 0028544, 0090920, 0100920, 0215353, 0220546, 0356299, 0360878, 0392572, 0394215, 0448009

Appendix 3: Table 1: Field inspections:

FIS ID Site	Licence Number	Inspection Date	Inspection Deadline	Contravention
#550980 #550979	P44844 P61256	January 13, 2025	February 14, 2025	P61256 & P44844 - The inspection found that the licensee could not provide evidence that the operating pipelines had been properly cleaned out, mitigated, and left in a safe state, nor were they being managed according to the requirements of the Integrity Management Program (IMP) or the Pipeline Operations and Maintenance Manual (POMM). This constitutes a violation of Section 71(2) of the <i>Pipeline Rules</i> , which mandate that any pipeline not in active flowing service must be managed according to the licensee's IMP.
#561466	P1162	March 3, 2026	April 2, 2026	<p>On February 27, 2026, MAGA stated that License 1162-4 was not discontinued in accordance with <i>Directive 056</i>; the December 2025 cathodic survey did not capture survey data for the inactive/discontinued pipelines.</p> <p>In the OneStop submission, the application was not submitted within 90 days of the completion of discontinuation work.</p> <p>During the application, the Licensee failed to select "<i>Other discontinuance requirements not met</i>" in accordance with <i>Directive 056</i>. The applicant or licensee must disclose in its application if it cannot meet a participant involvement or technical requirement, has outstanding concerns or objections related to its pipeline project or installation, or proposes to implement new technology. If there are outstanding concerns or objections to an exempt activity, the activity is no longer exempt from licensing, and an application disclosing the situation must be submitted.</p>

FIS ID Site	Licence Number	Inspection Date	Inspection Deadline	Contravention
				<p>As stated in the email received February 27, 2026, the 2025 cathodic survey was not completed on the inactive or discontinued pipelines to ensure sufficient protection for the life of the pipeline.</p> <p>As stated in the email received on February 27, 2026, documentation for License 1162-2, 3 was not available to demonstrate that the inactive pipelines are managed in accordance with MAGAs IMP under section 8.4.1.</p>
#561467	P51753	March 3, 2026	April 2, 2026	<p>As stated in the email received on February 27, 2026, documentation for License 51753-1 was not available to demonstrate that the inactive pipelines are managed in accordance with MAGA's SLMS or IMP under section 8.4.1.</p> <p>As stated in the email received February 27, 2026, the 2025 cathodic survey was not completed on the inactive or discontinued pipelines to ensure sufficient protection for the life of the pipeline.</p>
#561651	P1162	March 6, 2026	April 5, 2026	<p>During the site visit, it was confirmed that the impressed-current cathodic protection system was inoperable, and the February 27, 2026, email stated that the December 2025 cathodic survey did not capture inactive pipelines.</p> <p>During the site visit, it was identified that pipeline license 1162-4 was not physically isolated or disconnected from the facility piping and was not plugged or capped by mechanical or welded means.</p>
#561832	W0003254	March 13, 2026	April 12, 2026	<p>AER's inspectors observed no indications that remedial excavation has recently occurred or is currently underway in the area at 14-11 associated with the 1951 blowout. There were</p>

FIS ID Site	Licence Number	Inspection Date	Inspection Deadline	Contravention
				no signs of recent ground disturbance, active equipment, or materials on site. There was no evidence of recent ground disturbance, snow plowing into the location, or attempted access.
#561833	W0004003	March 16, 2026	April 15, 2026	AER's inspector observed no active infrastructure, operating equipment, or other indications that the committed system has been installed or is in operation. Vegetation growth patterns in the affected area, both on and off lease, appear undisturbed. The only groundwater-related infrastructure observed appears to be pre-existing piezometers that have been in place for some time. There was no evidence of recent ground disturbance, snow plowing into the location, or attempted access.
