WHEREAS Sumerian remains fully responsible for all outstanding regulatory obligations;

Mineral Lease Expired Wells

WHEREAS, the AER identified that Sumerian is noncompliant for failing to hold mineral rights to the wells listed in Appendix 1 (the MLE Wells), and between April 10, 2019, and December 16, 2024, the AER issued Notices of Noncompliance;

WHEREAS, on February 11, 2026, the AER issued a compliance summary letter to Sumerian detailing outstanding regulatory obligations related to Sumerian's operations, including the MLE Wells (the February Letter);

WHEREAS, on February 17, 2026, the AER scheduled a meeting for March 10, 2026, with Sumerian directors and officers at the Calgary head office to discuss Sumerian's operations, current and past non-compliance, and outstanding obligations, including the MLE Well requirements (the March Meeting);

WHEREAS, under section 3.012 of the *OGCR*, a Licensee shall abandon a well upon the termination of a mineral lease;

WHEREAS the February Letter requested Sumerian to submit documentation by February 26, 2026, demonstrating entitlement to produce, drill, or operate the MLE Wells, or to submit an abandonment plan outlining the actions to be taken to abandon the MLE Wells;

WHEREAS during the March Meeting, the AER reiterated Sumerian's regulatory obligations, including the MLE Wells;

WHEREAS, on March 17, 2026, Sumerian provided a formal written response to the March Letter (the March Response), but the Licensee did not provide specifics on how it would meet the MLE Well requirements, omitting details on compliance activities, their timing, and related milestones;

WHEREAS, on March 31, 2026, the Licensee submitted a plan to address outstanding regulatory requirements, including the MLE Wells (the March Plan);

WHEREAS, the Director believes it necessary to direct the work to ensure compliance with the March Plan;

Suspension Requirements for Wells

WHEREAS, as of the date of this Order, the AER records show that 73% of the wells not abandoned are inactive, and 24% of the inactive inventory is sour;

WHEREAS, given Sumerian's high inactive well inventory and sour count, during the March Meeting, the AER discussed the Licensee's obligations related to *Directive 013: Suspension Requirements for Wells*;

WHEREAS the February Letter indicated that Sumerian had 134 wells noncompliant with *Directive 013*, and the Licensee was required to address its obligations by February 26, 2026, and submit a written response detailing plans for any items that Sumerian could not complete within the specified timeframe;

WHEREAS, on February 26, 2026, Sumerian failed to submit a plan related to the *Directive 013* obligations as requested in the February letter;

WHEREAS by March 10, 2026, the number of wells noncompliant with *Directive 013* increased from 134 to 142, indicating a continued lack of commitment to meeting the suspended well requirements;

WHEREAS, in the March Response, Sumerian indicated that it could address most non-compliant wells in a short period and classified them from an operational perspective, noting that the plan might change as engineering and land work progress, depending on cost estimates and land acquisition;

WHEREAS the plan included in the March Response lacked clear timelines and milestones, and it provided insufficient details on how the company intended to address these non-compliant wells in a timely manner;

WHEREAS, on March 24, 2026, the AER reiterated its obligations under *Directive 013*, stating that the AER expects a plan outlining actions to bring all wells into compliance within the next 12 months, including a timeline for completing the work;

WHEREAS the March Plan, submitted by the Licensee on March 31, 2026, also included a plan to address the wells noncompliant with *Directive 013*;

WHEREAS, the Director believes that it is appropriate to impose terms and conditions in respect of these contraventions and necessary to direct work to ensure compliance is achieved;

WHEREAS, as of the date of this Order, 115 wells remain noncompliant with the requirements of *Directive 013*, and the noncompliant wells have been outstanding for an extended period; see Appendix 2 for details;

Field Concerns

WHEREAS since January 1, 2026, the AER has conducted 12 inspections at Sumerian's Sites, resulting in 11 inspections with unsatisfactory results, leading to a field satisfactory compliance rate of only 8%, which is below the industry average of 74% during the same period;

WHEREAS between September 8, 2025, and January 7, 2026, the AER inspected Sumerian's Sites and identified multiple deficiencies that the Licensee was required to address within a specified deadlines; however, these deadlines have passed and as of the date of this Order the Licensee has not taken the necessary actions to come into compliance; see Table 1, Appendix 3;

Emergency Response Plan (ERP)

WHEREAS the February Letter required Sumerian to demonstrate compliance with *Directive 071: Emergency Preparedness and Response*, including ensuring that its operations comply, and a plan is in place that meets the *Directive 071* obligations, including the submission of a corporate Emergency Response Plan (ERP), by February 26, 2026;

WHEREAS, on April 9, 2026, Sumerian submitted an Emergency Response Plan (ERP) to the AER, which included the Common Components of an ERP requirements described in Section 5 of *Directive 071* (the April ERP);

WHEREAS a review of the Common Components of the April ERP revealed multiple discrepancies, including, but not limited to, inaccurate information regarding the Incident Management Procedures and Personnel Responsibilities; missing a telephone list of internal response personnel; inaccurate revision history and evidence that the Common Components did not meet the requirements outlined in Section 5.3 of *Directive 071* (the ERP Discrepancies);

WHEREAS, as of the date of this Order, Sumerian has not fulfilled its *Directive 071* obligations, and an outdated ERP could result in ineffective emergency response, compromising the Licensee's ability to protect public safety and minimize environmental impacts;

2025 Closure Quota:

WHEREAS section 3.014 of the *OGCR* indicates that the Regulator has the authority to establish closure quotas and each licensee must meet their mandatory closure spend as directed by the AER;

WHEREAS on April 1, 2026, the AER informed the Licensee that the 2025 mandatory closure spend was adjusted from \$812,798.00 to \$445,368.77 due to the Receivership Process;

WHEREAS on April 9, 2026, the AER met with Sumerian to discuss current concerns (the April Meeting);

WHEREAS the AER records indicate that Sumerian did not meet the 2025 closure quota requirements, and during the April Meeting, the Licensee informed the AER that it did not conduct closure work to fulfill the 2025 closure quota requirements;

WHEREAS, on April 16, 2026, the AER issued a notice of noncompliance for failing to meet the 2025 closure quota requirements, and as of the date of this Order, Sumerian has not met those requirements;

Director's Assessment

WHEREAS the Director has reasonable grounds to believe that Sumerian has contravened regulations or rules under the AER's jurisdiction and that it is appropriate to impose terms and conditions on Sumerian to address those contraventions;

WHEREAS, based on the contraventions outlined above, including unresolved field inspections, outstanding regulatory obligations related to *Directive 013*, the ERP discrepancies, the Director believes that Sumerian is not providing reasonable care and measures to prevent impairment or damage at its Sites;

WHEREAS the Director is of the opinion that the performance of the work described in this Order is necessary to ensure abandonment of the MLE Wells as required under section 3.012 of the *OGCR*;

WHEREAS under the *OGCR*, a licensee shall provide a security deposit in accordance with *Directive 068: Security Deposits* if the licensee has not complied with any requirement applicable to the licensee respecting closure, including a closure quota;

Therefore, I, Tyler Callicott, under sections 22 and 26.2 of the *OGCA*, sections 1.120 and 3.012 of the *OGCR*, and section 22.1 of the *Pipeline Act*, do hereby order the following:

The RCAM Plan must include, at a minimum:

- a. Specific actions, including timelines, to improve Sumerian's satisfactory field inspection rating to at least the 36-month industry average, and actions that will be taken to address any field inspection noncompliances,

- c. Plans, agreements, memberships, and other relevant information that are currently in place or will be in place that will enable the Licensee to respond to an incident or an emergency event adequately;

8. Sumerian must implement the RCAM Plan as approved by the Director.

Inspection ID	Location Licence #	Inspection Date	Deficiency
FIS#560113	04-22-040-08W4 P54028	2026-01-07	Sumerian has developed an Integrity Management Program, but it is not implemented in accordance with Annex N of CSA Z662-23. This is in non-compliance with the <i>Pipeline Rules</i> 15(1).
FIS#557705	02-11-037-07W4 P58345	2025-09-17	The Licensee did not demonstrate effective monitoring of their internal corrosion control programs. Previously, identifying risks with internal corrosion on steel lines in the field to be removed from service. The Licensee did not demonstrate that they conducted periodic reviews to confirm the adequacy or effectiveness of their leak detection program. The last review of the leak detection program was conducted in 2019. Since that review, the Licensee has experienced other pipeline failures in this system. The risk assessment for this pipeline has been reclassified as high risk since the last leak-detection review in 2019.
FIS#557388	01-22-040-08W4 P58349	2025-09-08	The Licensee reported a pipeline incident on April 25, 2025. At the time of the incident, free fluids were recovered, and it was communicated that soil samples were collected at the end of April 2025. To date, the AER has not received the release report and remediation submission. This constitutes a noncompliance with section 68 of the <i>Pipeline Rules</i> .
