

Made at Edmonton, in the
Province of Alberta, on

September 21st, 2026

ALBERTA ENERGY REGULATOR

Under sections 22, 26.2, and 27(1) of the *Oil and Gas Conservation Act (OGCA)*, section 3.012(a) of the *Oil and Gas Conservation Rules (OGCR)*, section 140 of the *Environmental Protection and Enhancement Act (EPEA)*, and section 22.1 of the *Pipeline Act*.

Sumerian Oil & Gas Inc

1000, 888 3rd Street SW
Calgary, AB T2P 5C5

(Sumerian, or the Licensee)

WHEREAS Sumerian is the holder of business associate code A7BY, and holds well, facility, and pipeline licences granted by the Alberta Energy Regulator (AER, or the Regulator) under the *OGCA* and the *Pipeline Act* (collectively, the Licences);

WHEREAS there is physical infrastructure associated with the Licences, including wells, well sites, facilities, facility sites and pipelines (collectively, the Sites), and the Licensee is the operator of the Sites as listed in Appendix 5;

WHEREAS on April 22, 2026, the AER issued an order to Sumerian under sections 22 and 26.2 of the *OGCA*, sections 1.120 and 3.012 of the *Oil and Gas Conservation Rules (OGCR)*, and section 22.1 of the *Pipeline Act*. (the April Order);

WHEREAS the April Order required Sumerian to provide reasonable care and measures at its Sites, the April Order remains in effect, and after the April Order was issued, the AER has found new evidence that the Licensee is not providing reasonable care and measures at its Sites;

Directive 087: Well Integrity Management

WHEREAS, on January 27, 2026, the AER issued a notice of noncompliance for failing to submit packer isolation test results for the 2025 calendar year for the wells listed in Appendix 1 (the Packer Test Wells), as required by section 2.1 of *Directive 087*, and requested Sumerian to bring those wells into compliance by February 25, 2026;

WHEREAS by February 25, 2026, Sumerian failed to bring the Packer Test Wells into compliance. On May 20, June 10, June 17, July 24, and August 13, 2026, the AER in communications to Sumerian reiterated the *Directive 087* obligations for these wells. To date, these requirements remain overdue, and have been overdue for an extended period, and Sumerian remains noncompliant with *Directive 087*

requirements;

WHEREAS on September 17, 2026, Sumerian and the AER met to review the draft version of this Order, discuss the rationale and supporting evidence, and the outlined requirements of the Order (the Pre-issuance Meeting);

WHEREAS during the Pre-issuance Meeting, Sumerian confirmed its commitment to meet all requirements listed in the draft Order; however, the Licensee requested an extension to conduct the packer isolation test for Packer Test Wells and committed to providing daily reports to demonstrate that the tests have been completed and the Packer Test Wells meet the requirements of Directive 087;

WHEREAS on September 21, 2026, Sumerian and the Senior Advisor spoke by phone, and the Licensee agreed that seven days from the date of issuance of this Order would be a reasonable period to bring the Packer Test Wells into compliance; the Senior Adviser approved the proposed timelines, and the draft Order was modified to reflect those changes (See appendix 1 for details);

Pipelines Concerns

WHEREAS on January 7, 2026, an AER inspector inspected Sumerian's pipeline licence P54028 at 04-22-040-08W4M and noted that Sumerian had failed to implement the Integrity Management Program (IMP) for its pipeline (FIS#560113);

WHEREAS the April Order required the Licensee to implement the IMP by May 22, 2026;

WHEREAS as of May 22, 2026, Sumerian had failed to address FIS#560113 to the AER's satisfaction;

WHEREAS on June 1, 2026, Sumerian stated that it would commence preparing the pipeline manual with final delivery scheduled for June 22, 2026;

WHEREAS on May 25, 2026, the Licensee and the AER met to discuss outstanding obligations including the IMP requirements, and the AER followed up with emails on July 8, July 24, and August 13, 2026, to reiterate Sumerian's regulatory obligations regarding the FIS#560113 inspection;

WHEREAS, as of the date of this Order, the FIS#560113 inspection remains unresolved and has not been addressed to the AER's satisfaction;

WHEREAS on April 29, 2026, an AER inspector visited Sumerian's Sites and inspected the pipeline licences P20995, P54028, P30350, and found multiple deficiencies that had the potential to impact the safety and integrity of its pipelines including but not limited to failure to demonstrate that Sumerian had implemented an IMP, failure to demonstrate that it had a leak detection program for its pipelines, failure to operate its pipeline system in accordance with documented procedures, and as of the day of this Order, the inspections remain unresolved to the AER's satisfaction, (FIS#562797, FIS#562798, FIS#562800), (see Appendix 3 for details);

WHEREAS on August 17, 2026, an AER inspector inspected the pipeline licences P54028 and P58349, and found multiple deficiencies including but not limited to failure to demonstrate that it was monitoring

the effectiveness of the internal corrosion control program, failure to maintain and operate its pipeline system in accordance with documented procedures, failure to demonstrate that it had implemented an IMP, and as of the day of this Order, the inspections remain unresolved to the AER's satisfaction, (FIS#565600 and FIS#565604), (see Appendix 3 for details);

WHEREAS the absence of IMP implementation prevents the Licensee from identifying and mitigating pipeline integrity issues, increasing the risk of pipeline failures, releases and potential impacts on public safety and the environment;

Releases at Sumerian's Sites

WHEREAS on April 30, 2026, an AER inspector inspected the Sumerian facility Site F2927 at 15-35-021-07-W4 (the 15-35 Release Site) and identified multiple areas around the Site where a release had occurred but had not been cleaned up. On August 6, 2026, Sumerian reported with respect to the 15-35 Release Site that all free-standing fluid had been removed, all garbage had been collected and disposed of, and that staining had been addressed and placed in bins (FIS#562834);

WHEREAS on August 11, 2026, an AER inspector inspected the 15-35 Release Site (FIS#565464) and observed that many areas throughout the facility showed evidence of spills or releases that had not been cleaned up and required corrective action, (See Appendix 2 for details);

WHEREAS on August 15, 2026, Sumerian reported a release of substances into the environment related an integrity failure to the pipeline licence P58349 (FIS#20262203) at 01-22-040-08W4 (the 01-22 Release Site);

WHEREAS on August 17, 2026, and August 24, 2026, an AER inspector inspected the 01-22 Release Site and noted that the Licensee had not begun the containment or the cleanup of the released substances, had failed to prevent access of wildlife or livestock to the 01-22 Release Site, and that cattle tracks were present in the impacted area of the release, (FIS#565600 and FIS#565757);

WHEREAS, in light of the two releases of substances outlined above, the AER believes the releases at the 15-35 Release Site and 01-22 Release Site (the Release Sites) are causing or may cause adverse effects on the environment. Therefore, Environmental Protection Orders (EPOs) were issued on August 18 and September 8, 2026, to mitigate those effects at the Release Sites and surrounding affected areas;

WHEREAS on September 2, 2026, an AER inspector inspected the 15-35 Release Site and "observed that there was no Licensee representative, contractors or maintenance equipment on location. A review of the site appeared to show that minimal to no progress was made in regards to the issued EPO" and on September 3, 2026, the AER issued a failure to comply letter to Sumerian for failing to meet the requirements of the August 18, 2026, EPO; (See Appendix 2 for details);

Field Concerns

WHEREAS between January 7, 2026, and September 2, 2026, the AER conducted inspections at Sumerian's Sites and identified multiple deficiencies that the Licensee was required to address (see

Appendix 3 for details);

WHEREAS AER records indicate that Sumerian has 18 open inspections, 16 of which have passed their deadlines, and as of the date of this Order, the Licensee has not taken the necessary actions to satisfy the AER's requirements;

WHEREAS the April Order required Sumerian to submit an acceptable RCAM Plan demonstrating reasonable care and measures at its Sites. In the RCAM Plan Sumerian was required to outline specific actions to raise the satisfactory inspection rating to at least the 36-month industry average and to explain how Sumerian would address unsatisfactory field inspections in a timely manner;

WHEREAS AER records show that Sumerian's field compliance rate was 16% between November 24, 2025, and April 22, 2026, which was below the industry average of 74% for the same period. As of the date of this Order, Sumerian's compliance rate remains low at 24%, since November 24, 2025, including 16 overdue inspections, raising concerns about Sumerian's RCAM Plan, its ability to improve the field compliance rate, and its ability to resolve inspection deficiencies in a timely manner;

Remediation Regulation Requirements:

WHEREAS the Licensee was required to submit an annual Decommissioning and Land Reclamation Report (DLRP) for the Sedgewick Sour Gas Plant by March 31, 2026, pursuant to section 5.3.1 of the *EPEA* approval # 11332-03-00 (the *EPEA* Approval), and AER records indicate that the Licensee did not submit the DLRP by March 31, 2026, and, as of the date of this Order, the report has not been submitted;

WHEREAS the 2023 and 2024 Annual Decommission and Land Reclamation reports did not include updates on the progress of the Remedial Action Plan (RAP) and the Record of Site Condition (RoSC), as required by sections 5.3.2(a)(viii) and 5.3.2(a)(ix) of the *EPEA* Approval. In addition, upon reviewing the Final Land Reclamation Plan (FLRP) submitted by the Licensee on March 26, 2024, it was identified that the FLRP did not meet all the requirements outlined in section 5.2 of the *EPEA* Approval;

Emergency Response Plan (ERP)

WHEREAS the April Order required Sumerian to provide an updated corporate ERP by May 8, 2026, demonstrating that all previously identified deficiencies in Sumerian's corporate ERP had been addressed;

WHEREAS by May 8, 2026, Sumerian had failed to address those deficiencies;

WHEREAS the AER reiterated to Sumerian its ERP obligations on May 12, June 1, June 11, June 23, July 15, July 24, August 5, and August 13, 2026;

WHEREAS despite the AER's repeated communications to Sumerian about its regulatory obligations regarding its ERP, Sumerian remained noncompliant for over three more months. On August 17, 2026, Sumerian addressed its ERP deficiencies. This delay raised concerns about Sumerian's ability to meet regulatory obligations in a timely manner;

WHEREAS the AER received information that operators may have left the Sumerian Sites, which has

raised concerns about Sumerian's capability to operate safely, respond to emergency incidents, and provide reasonable care and measures at its Sites;

WHEREAS on September 11, 2026, the AER emailed Sumerian to express concerns about the absence of operators at its Sites and requested a response by September 14, 2026, detailing actions taken to ensure continued safe operations including but not limited to current staffing levels, emergency response readiness, plans for safe operations;

WHEREAS during the Pre-issuance Meeting Sumerian stated it had replaced the previous staff with new operators and would provide the staff details to the AER;

WHEREAS on September 21, 2026, Sumerian stated that the accountable officer for operations and direct contact for both the AER and the field is the current CEO; however, no new contact information was provided regarding the recent personnel hired by Sumerian as requested by the AER;

WHEREAS on September 21, 2026, Sumerian spoke to the Senior Advisor and committed to provide staff information as requested by the AER;

Mineral Lease Expiry (MLE)

WHEREAS the April Order required Sumerian to complete the abandonment of the 27 overdue Mineral Lease Expiry requirements (the April MLE Wells) within 365 calendar days of the Order's issuance (April 22, 2027), or to demonstrate entitlement to produce, drill, or operate within 90 calendar days of the Order's issuance (July 21, 2026);

WHEREAS the number of overdue MLE Wells licenced to Sumerian has increased to 28, and 21 additional Wells will be overdue in 2027 (the Additional MLE Wells). In total, 49 Wells are noncompliant with MLE requirements in Appendix 4;

The Licensee Capability Assessment (LCA) Factors

Section 2 of *Directive 088: Licensee Life-Cycle Management* sets out that the AER will comprehensively assess licensees using a multifactor approach to evaluate their ability to meet regulatory and liability obligations throughout the energy development life cycle, including LCA factors described in section 2.1 of this Directive;

WHEREAS the LCA for Sumerian identifies the Licensee as having a medium liability magnitude. According to section 2.1.1.2 of *Manual 023: Licensee Life-Cycle Management*, medium liability is defined as equal to or greater than \$25 million and less than \$150 million Canadian dollars;

WHEREAS as of the date of this Order, the OneStop Liability Assessment Report reveals that 75% of Sumerian's total liability is in an inactive state (inactive and abandoned assets). Having high inactive liability raises concerns regarding the Licensee's capabilities to meet its end-of-life obligations;

WHEREAS the AER records indicate that as of the date of this Order, 67% of Sumerian's non-abandoned wells are inactive, and this high proportion of inactive assets poses a risk to Sumerian's ability to meet its

regulatory and liability obligations;

WHEREAS the AER's records indicate that at least 22% of Sumerian's inactive well inventory has remained inactive for over a decade, and the AER considers these wells unlikely to be reactivated or to generate positive cash flows for the Licensee;

WHEREAS the AER's records indicate that Sumerian holds 135 wells with an "Active" life cycle status and as defined in section 4 of *Directive 013: Suspension Requirements for Wells*: A well attains active status after it reports volumetric activity for at least one hour per month for three consecutive months. These active wells account for 15% of Sumerian's inventory of 900 wells;

WHEREAS the LCA factors outlined above and the factors listed in section 4.5 of *Directive 067* indicate that Sumerian is at risk of failing to meet its regulatory and liability obligations;

Directive 067: Eligibility Requirements for Acquiring and Holding Energy Licences

WHEREAS Sumerian submitted its 2025 financial information, and upon review, the AER found discrepancies regarding its bank changes, interest information, and the current portion payable to a related party. On August 13, 2026, the AER requested clarification or resubmission of the 2025 financial information by August 23, 2026;

WHEREAS, as of the date of this Order, Sumerian has neither provided the clarified or resubmitted financial information nor responded to the request;

WHEREAS the AER has limited operational and financial history for the Licensee since November 14, 2025, when the Licensee successfully emerged from a Reverse Vesting Order (RVO) process, because the Licensee has submitted only limited financial information with discrepancies since that process concluded. On March 24, May 12, May 21, May 25, June 17, July 24, and August 13, 2026, the AER requested that the Licensee submit additional financial information. Although Sumerian has indicated it would submit the information by various specific dates, it has not yet provided the requested financial details. Without this information, the AER is unable to assess Sumerian's economic capability to meet its regulatory obligations;

WHEREAS due to the lack of financial information provided by Sumerian, the AER financial specialist has been unable to assess Sumerian's financial risk level since November 14, 2025, when the Licensee successfully emerged through the RVO process;

WHEREAS the AER is aware that Sumerian has outstanding debts to municipalities;

WHEREAS on August 6, 2026, the AER determined that the Licensee posed an unreasonable risk for failing to meet its 2025 Licensee Closure Quota (LCQ) and restricted Sumerian's licence eligibility to limited status, thereby prohibiting the Licensee from acquiring any well, facility, or pipeline licences, whether through transfers or applications;

Senior Advisor's Assessment

WHEREAS the Senior Advisor believes that the absence of packer isolation testing for the Packer Test Wells prevents the Licensee from identifying well integrity issues, which may result in undetected leaks migrating into groundwater or other formations, thereby creating environmental risks;

WHEREAS the Senior Advisor believes that Sumerian's failure to implement the IMP at its Sites prevents the Licensee from identifying and mitigating pipeline integrity issues that compromise Sumerian's ability to provide reasonable care and measures, protect public safety, and prevent environmental impacts;

WHEREAS the Senior Advisor believes that the reported spills are causing or may cause adverse environmental effects; Sumerian has not adequately remediated the Release Sites, or complied with the Environmental Protection Orders issued by the AER, raising concerns about Sumerian's ability to effectively respond to incidents, and ability to protect the public and the environment;

WHEREAS the Senior Advisor believes that Sumerian's response to address the AER's concerns about the absence of operators at its Sites was insufficient, raising concerns about its capabilities to adequately respond to incidents as well as its ability to continue safe operations while protecting the environment and the people of Alberta;

WHEREAS based on the contraventions outlined above, including Sumerian's field inspection rating below the industry average, overdue regulatory obligations and field inspections, unresolved pipeline integrity issues, and failure to provide the packer isolation tests for the 2025 calendar year for the wells listed in Appendix 1, the Senior Advisor believes that Sumerian is not providing reasonable care and measures to prevent impairment or damage at its Sites;

WHEREAS the Senior Advisor is of the opinion that the performance of work is necessary in relation to the EPEA Approval before the issuance of a reclamation certificate to conserve and reclaim specified land;

WHEREAS due to Sumerian's history of noncompliance with its ERP requirements, the Senior Advisor believes it is necessary and appropriate to impose terms and conditions on the annual tabletop or functional exercise for the corporate ERP, in accordance with section 7 of *Directive 071*, and on ERP training, in accordance with section 6.1 of *Directive 071*;

WHEREAS the Senior Advisor believes that the execution of closure work is necessary to abandon the MLE Wells listed in Appendix 4, in accordance with section 3.012 of the *OGCR*;

Therefore, I, Greg Jones, Senior Advisor, Regulatory Compliance, under sections 22, 26.2 and 27(1) of the *OGCA*, section 3.012 of the *OGCR*, section 140 of *EPEA*, and section 22.1 of the *Pipeline Act*, do hereby order as follows:

Reasonable Care and Measures:

1. **Within seven (7) calendar days** of the date of this Order, Sumerian must conduct isolation packer testing for the Packer Test Wells listed in Appendix 1. Upon the packer test completion, Sumerian must immediately provide the preliminary documentation from the service provider to the Senior Advisor at Greg.Jones@aer.ca and to ComplianceAssurance@aer.ca demonstrating that packer isolation testing of the Packer Test Wells has been completed. Daily progress reports must also be submitted.
2. **Within fourteen (14) calendar days** of the date of this Order, Sumerian must report the packer test results through the designated information submission system. Sumerian must also email the packer test result documents (raw test data, including timed pressure records, charts, graphs, etc.) to the Senior Advisor at Greg.Jones@aer.ca, to PITCompliance@aer.ca and ComplianceAssurance@aer.ca.
3. **Within two (2) calendar days of this Order**, Sumerian must provide information to demonstrate its capabilities to safe operations, including a complete list of Sumerian current staff and contractors with full names, contact information (phone number / email) and description of their roles.
4. **Within thirty (30) calendar days** of the date of this Order, Sumerian must submit an Integrity Management Program (IMP) for its pipelines to the Senior Advisor's satisfaction.
5. **Within ninety (90) calendar days** of the date of this Order, Sumerian must implement an Integrity Management Program (IMP) for its pipelines, subject to the Senior Advisor's approval.
6. **Within thirty (30) calendar days** of the date of this Order, Sumerian must resolve all outstanding noncompliance for each field inspection listed in Appendix 3, unless otherwise indicated by the AER. Sumerian will follow up with the DDS system and resolve issues to the satisfaction of AER inspectors.

Terms and Conditions

7. **By September 30, 2026**, Sumerian must demonstrate that its ERP training has been completed in accordance with section 6.1 of *Directive 071*.
8. **By November 30, 2026**, Sumerian must conduct its annual tabletop or functional exercise for a corporate ERP in accordance with section 7 of *Directive 071*.
9. **By October 15, 2026**, Sumerian must submit an acceptable 2025 Annual Decommissioning and Land Reclamation Report (DLRP) for the Sedwick Sour Gas Plant through OneStop for the EPEA Approval.
10. **By October 15, 2026**, Sumerian must submit an acceptable Updated RoSC and Updated RAP, including a remediation schedule, through OneStop.
11. **By October 15, 2026**, Sumerian must submit an acceptable Final Land Reclamation Plan (FLRP). The FLRP must comply with all requirements set out in section 5.2 of the EPEA Approval and be

submitted by email to the Senior Advisor at Greg.Jones@aer.ca, to EPEA.WA.Plans.Authorizations@aer.ca, and ComplianceAssurance@aer.ca

12. **By the Deadline Date specified for each well in Appendix 4**, Sumerian must fully complete the abandonment (both downhole and surface) of the Additional MLE Wells listed in Appendix 4. This requirement will not apply to any well for which Sumerian demonstrates entitlement to produce, drill, or operate within ninety (90) calendar days of the date of this Order.
13. **Within thirty (30) calendar** days from the date of this Order, Sumerian is required to submit its first and second Quarter Interim Financial Statements for the 2026 fiscal year to the Senior Advisor at Greg.Jones@aer.ca and ComplianceAssurance@aer.ca.
14. **Within fourteen (14) calendar** days of the date of this Order, Sumerian must resubmit its 2025 financial information, Schedule 3, to the AER via OneStop, in accordance with *Directive 067*.

General Terms and Reporting

15. Unless otherwise indicated, all information required in this Order should be submitted to Greg Jones at Greg.Jones@aer.ca and ComplianceAssurance@aer.ca.
16. The Licensee must submit a weekly progress report, beginning on the first Monday following the issuance of this Order and continuing until otherwise directed by the AER. The report must include activities undertaken to comply with this Order, including updates on staffing and contractor information demonstrating Sumerian capabilities of safe operations.
17. All submissions required to comply with this Order must be made in the required format and submitted to the applicable AER system, as required by AER regulations or the Senior Advisor.
18. Where a deadline or reporting frequency has been specified in this Order, the Senior Advisor may authorize in writing a different deadline or frequency as applicable. Requests for extensions must be made in writing to the Senior Advisor before the deadline.
19. If requested by the Senior Advisor, the Licensee shall submit, within two (2) business days, any records or information pertaining to this Order.
20. In carrying out the requirements of this Order, the Licensee shall obtain and comply with all required federal, provincial, or municipal permits and governing legislation and provide to the AER all authorizations obtained upon request by the AER.
21. Failure to meet the requirements of this Order to the satisfaction of the Senior Advisor may result in further enforcement action.

Dated at the City of Edmonton in the Province of Alberta, the 21st day of September 2026.

<original signed by>

Greg Jones
Senior Advisor, Regulatory Compliance
Alberta Energy Regulator

In complying with this order, the party or parties named must obtain all approvals necessary, notwithstanding the above requirements.

This order in no way precludes any enforcement actions being taken regarding this matter under the *OGCA*, *OGCR*, *EPEA*, and *Pipeline Act* or any other provincial or federal legislation, or by any other regulator with jurisdiction.

Under the *Responsible Energy Development Act*, an eligible person may appeal decisions that meet certain criteria. Eligible persons and appealable decisions are defined in section 36 of the *Responsible Energy Development Act* and section 3.1 of the *Responsible Energy Development Act General Regulation*. If you wish to file a request for regulatory appeal, you must submit your request according to the AER's requirements. You can find filing requirements and forms on the AER website, www.aer.ca, under Applications and Notices: Regulatory Appeal Process.

Bellow is the same spot, taken at 8:01 am, July 31, 2026

Appendix 3

Table 1: Unsatisfactory field inspections that remain unresolved:

Inspection Id	Inspection Date	Licence #	Deficiencies
1. 560113	07-Jan-26	P54028	Sumerian has developed an Integrity Management Program, but it is not implemented in accordance with Annex N of CSA Z662-23. – (included in the April Order)
2. 562104	30-Mar-26	W 0275273	At the time of inspection, the shack had been removed from the wellhead. Sumerian did not test the identified SCVF within 30 days. The inspector identified the SCVF on March 30, 2026. Sumerian has provided no testing.
3. 562246	08-Apr-26	F20569	ERP outstanding regulatory obligations.
4. 562605	15-Apr-26	W 0147368	At the time of inspection, one handle remained on the casing At the time of inspection, the initial suspension of W0147368 was not reported to the AER or Petrinex.
5. 562680	15-Apr-26	W 0169752	At the time of inspection, the injection meter was last calibrated on Sept. 18/24 The last packer test reported was completed on August 3, 2022.
6. 562706	15-Apr-26	W 0177918	At the time of inspection, the injection meter was last calibrated on Sept. 19/24. The last packer test reported was completed on August 3, 2022

Inspection Id	Inspection Date	Licence #	Deficiencies
7. 562797	29-Apr-26	P20995	Sumerian did not provide evidence of leadership commitment and an organizational structure for the policy, development, implementation, and continual improvement of Sumerian's Safety and Loss Management System. Sumerian did not provide evidence of leadership commitment and an organizational structure with defined responsibilities, authorities, and the structure/implementation/communication of Sumerian's Safety and Loss Management System. Sumerian did not demonstrate that they implemented a documented Integrity Management Program. Sumerian did not implement a Safety and Loss Management System as specified in the Rules or Standard. Sumerian did not demonstrate that they implemented a documented integrity management program.
8. 562798	29-Apr-26	P54028	Sumerian did not implement a Safety and Loss Management System as specified in the Rules or Standard. Sumerian did not demonstrate that they implemented a documented Integrity Management Program. Sumerian did not provide evidence of leadership commitment and an organizational structure for the policy, development, implementation, and continual improvement of Sumerian's Safety and Loss Management System.
9. 562800	29-Apr-26	P30350	Sumerian did not implement a Safety and Loss Management System as specified in the Rules or Standard.
10. 562834	30-Apr-26	F2927	During the inspection, it was observed that fluid was released outside the tank containment. Staining was observed at various points across the lease, and it appears that some containers with hydrocarbon fluids have overflowed, staining the ground.
11. 562837	30-Apr-26	W 0209096	During the inspection, it appeared that the wellhead had not been isolated from the pipeline. During the inspection, the master valve handle was still attached and was not locked and chained.
12. 563079	06-May-26	W0136621	At the time of inspection, the orifice plate on the gas meter had not been inspected since August 10, 2022. Meter calibration report requested by the AER
13. 565464	11-Aug-26	F2927	At the time of the inspection, many areas throughout the facility showed evidence of spills or releases that had not been cleaned up as required. While it appeared that some effort had been made to scrape up and dispose of some of the contaminated soil from one area, the spill or release largely appears to have been covered up with fresh gravel. It appears that no effort had been made to clean up multiple other areas throughout the facility where spills or releases had clearly occurred in the past. At the time of the inspection, multiple areas throughout the facility were not maintained in a clean condition, which constituted a safety

Inspection Id	Inspection Date	Licence #	Deficiencies
			hazard, a nuisance, or an adverse effect on air, soil, surface water, or groundwater. A wheelbarrow and other open containers containing oil, garbage, old piping, planks, and other waste products were stored throughout the facility.
14. 565481	11-Aug-26	F26080	At the time of the inspection, the sign displayed only the previous licensee's name, but the facility is licensed to Sumerian Oil & Gas Inc. At the time of the inspection, the facility license status was abandoned and therefore not in full force and effect. The facility was clearly not abandoned, as several storage tanks, process buildings, and other equipment associated with operating a compressor station were visible from the facility's main entrance. Note: The AER did not access the facility; all evidence was collected in front of the locked main gate.
15. 565600	17-Aug-26	P58349	At the time of inspection, clean-up of the release had not yet commenced. No fencing or wildlife deterrents had been installed; cattle tracks were noted in the release-impacted area. On the morning of August 18th, an update from Sumerian noted that the cleanup had not yet been initiated or was en route—pending Sumerian leadership approval. Sumerian did not provide evidence of leadership commitment and an organizational structure with defined responsibilities, authorities, and the structure/implementation/communication of Sumerian's Safety and Loss Management System. Sumerian could not demonstrate that it was monitoring the effectiveness of its internal corrosion control program. Sumerian did not demonstrate that it implemented a documented integrity management program. Sumerian did not demonstrate that it implemented a documented integrity management program. Sumerian did not operate and maintain its pipeline systems in accordance with documented procedures.
16. 565604	17-Aug-26	P54028	Sumerian could not demonstrate that it was monitoring the effectiveness of its internal corrosion control program.
17. 565757	24-Aug-26	P58349	The steps to contain and clean up the substances have not been taken regarding incident FIS#20262203. the time of inspection, no cleanup of the release had commenced; vegetation in the pipeline right-of-way in the vicinity of the release appeared stressed or dead. The operator had used survey lath to mark where released fluids initially appeared to be reaching the surface; based on the vegetation, it appears the release occurred farther uphill (to the east). No fencing had been erected around the release area. No wildlife deterrents were in place.

Inspection Id	Inspection Date	Licence #	Deficiencies
18. 565978	02-Sep-26	F2927	During the inspection the following non compliances were observed in contravention of AER Environmental Protection Order (EPO) 202608-010: Liquids were observed in trays, pails, and a wheelbarrow. Impacted soil was observed at various points on lease, including in-situ and in waste bins. Oilfield waste was observed at multiple points on location. Upon arrival at site, it was observed that there was no licensee representative, contractors or maintenance equipment on location. A review of the site appeared to show that minimal to no progress was made in regard to the issued EPO.

Appendix 4

Table 2: Mineral Lease Expiry Wells that are noncompliant with requirements.
