

Completing OneStop Amendment Overview Screen

» Intended User: Public Land applicants

Overview – Amendment Overview Screen

This quick reference guide (QRG) describes how to complete the Amendment Overview screen in OneStop for formal disposition amendments.

By getting here you have already initiated an amendment for a disposition and now need to complete the Overview screen for each activity.

Tip:

Only the following dispositions can be included in the same amendment application:

- Disposition being amended
- Associated disposition (if not being disassociated), except for additional plans
- New incidental regulator temporary field authorizations (RTFs) related to one of the above as a result of the amendment

Re-submitted shapefiles cannot have the same name as any previously submitted shapefiles in the same draft application.

Getting to Public Lands Amendment Overview Screen

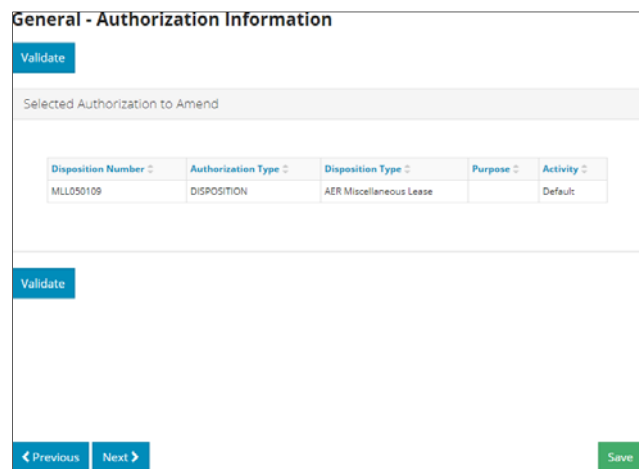

There are two ways to reach the Overview screen after initiating an amendment:

Click **Overview** in the left navigation bar.

or

From the Authorization Information screen, click **Next** at the lower left corner of the screen.

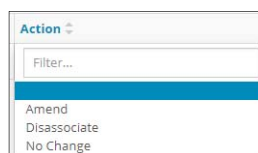

Next >

Associated Disposition

If applicable, the associated disposition automatically displays in the table.

Associated Disposition				
Disposition Number	Disposition Type	Disposition Purpose	Activity Code	Action
MSL070874	AER Mineral Surface Lease			Amend

1. **Mandatory:** Select **Action** from the drop-down menu.

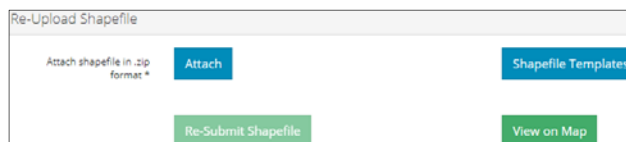

Tip:

Unless being disassociated, the shapefile must include both associated dispositions.

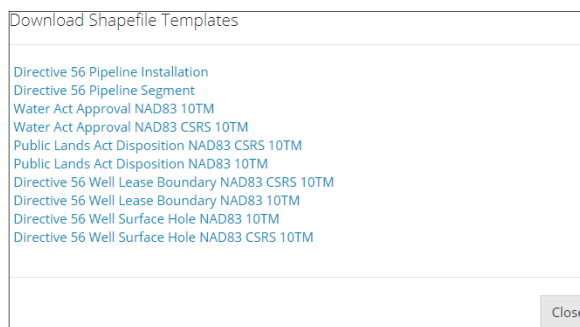

Upload Shapefile

1. Optional: Shapefile templates are available in this pane if required. Click **Shapefile Templates**.

A window opens displaying a list of shapefile templates available for download.

2. Optional: Select and download the appropriate **Public Lands Act Disposition** template.
3. Optional: Click **Close** to close the window.

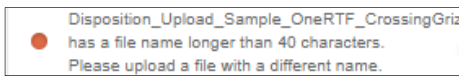

Tip:

Refer to **Importing Spatial Data – Public Lands** QRG on the OneStop Help page for more information. The shapefile templates are also available for download there.

- Mandatory:** Click **Attach**. Browse for the file and attach it in ZIP file format.
- Mandatory:** Click **Submit Shapefile**. It may take some time to process the shapefile.

Any error messages will appear in red or as a pop-up message at the lower right corner of the screen.

- Optional: Click **Show Shapefile Errors**. The Shapefile Validation Errors window opens. View the errors. Select **Close** to exit the window.

- Repeat **steps 4** and **5** to fix any errors, and re-submit the shapefile.

Tip:
The re-submitted shapefile cannot have the same name as any previously submitted shapefiles in the same draft application.

[View on Map](#)

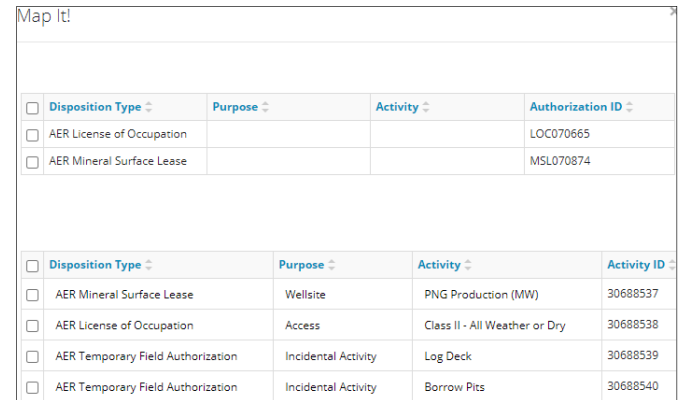

Note: This QRG does not describe the full function of OneStop's map viewer.

- Optional: Preferably after analyzing the shapefile in the Public Land Disposition pane, return to the Upload Shapefile pane, and click **View on Map**.

The Map It! Window opens.

Tip:
Analyze shapefiles before viewing draft dispositions on the map. This ensures all attributes such as purpose and activity are included in the map.

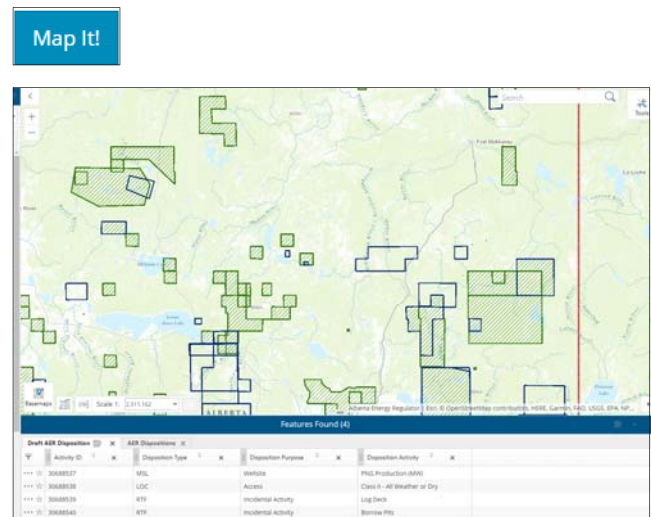

- Mandatory:** Select the **check box** beside the disposition(s) you wish to view on the map.

- Optional: Select **Close** to return to the main screen.

- Mandatory:** Click **Map It!** OneStop's map viewer opens displaying your selection of draft dispositions.

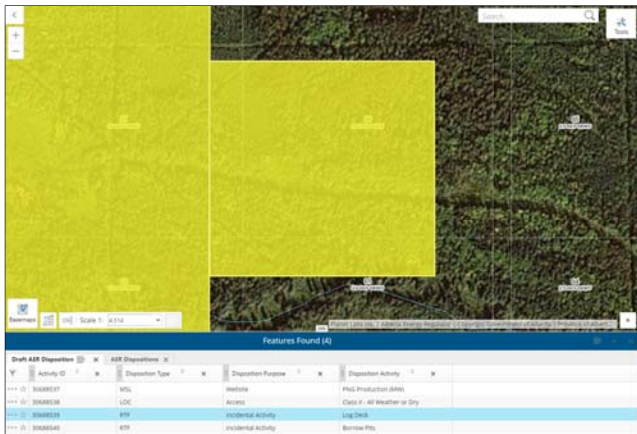

Details of the draft dispositions are also listed in the Features Found section at the bottom of the screen.

Features Found (4)			
Draft AER Disposition		AER Dispositions	
Activity ID	Disposition Type	Disposition Purpose	
☆ 30688537	MSL	Wellsite	
☆ 30688538	LOC	Access	
☆ 30688539	RTF	Incidental Activity	

Your map will zoom in on the disposition and draft layer selection extent.

4. **Mandatory:** Click the row you wish to view in Features Found. The map will zoom in on the disposition extent.

5. **Mandatory:** Select the star beside the disposition(s) you wish to view on the map. Ensure you are zoomed to an appropriate extent. The star turns blue when it has been selected.

Draft AER Disposition		AER Dispositions	
Activity ID	Disposition Type		
★ 30688537	MSL		
☆ 30688538	LOC		

Selections are highlighted in blue on the map

a) Optional: Click the **star** again to turn off the selection.

Tip:
Use the tabs at the top of the screen to move between the OneStop application and the map viewer.

Amending Disposition Type

- i) To amend your disposition type, upload a shapefile with the disposition type you want to amend to.
- ii) You may include the amended purpose/activity in the shapefile attributes for autocompletion, or select it on the screen in the Public Land Dispositions pane.

A new disposition number will be created.

Note: This is a major amendment and should be carefully considered.

Public Land Dispositions

The Public Land Dispositions table will autocomplete based on available shapefile attributes.

Public Land Dispositions

In order to proceed with the application, all information on related incidental activities and plan associations must be filled in. For all disposition types this involves associating a plan to each activity, recognizing only certain activities can share the same plan as per the GOA plan requirements. For RTFs this includes relating the activity to a formal disposition (if incidental).

View Shapefile Info | Relate Activity | Applicable Incidental Activity Information

<input type="checkbox"/>	Shapefile Name	Unique ID	Disposition Type	Purpose	Activity
<input type="checkbox"/>	Disposition	1	AER Mineral Surface Lease	Wellsite	PNG Production (MW)
<input type="checkbox"/>	Disposition	2	AER License of Occupation	Access	Class II - All Weather or D
<input type="checkbox"/>	Disposition	3	AER Temporary Field Authorization	Incidental Activity	Log Deck

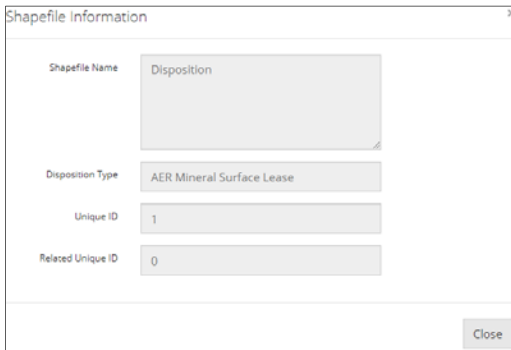

View Shapefile Info

Optional: Select the **check box** beside the appropriate disposition, and click **View Shapefile Info**.

<input checked="" type="checkbox"/>	Shapefile Name	Unique ID	Disposition Type	Purpose
<input checked="" type="checkbox"/>	Disposition	1	AER Mineral Surface Lease	Wellsite

View Shapefile Info

The Shapefile Information window opens displaying shapefile details. Click **Close** when you've completed your review.

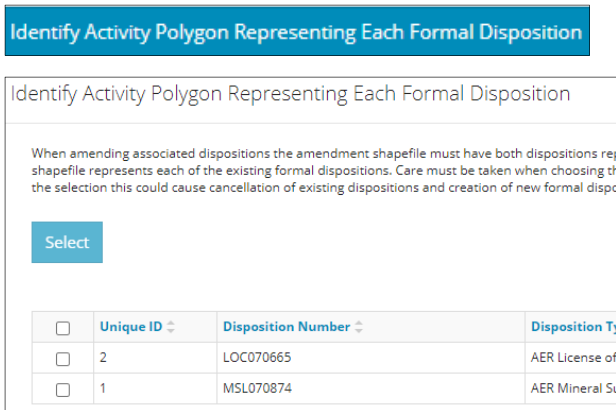

Identify Activity Polygon Representing Each Formal Disposition

1. **Mandatory:** Select the first formal **disposition** to identify.

2. **Mandatory:** Click **Identify Activity Polygon Representing Each Formal Disposition**. A new window opens listing associated dispositions.

3. **Mandatory:** Select the **check box** beside the appropriate disposition, and click **Select**.

a) Optional: **Close** to close the window without saving your entry.

4. **Mandatory:** Repeat **steps 1 to 3** for other formal dispositions.

Enter, Update or Amend Purpose/Activity

Unless already autocompleted from the shapefile, you will need to provide the purpose and activity for each disposition in the amendment application.

Disposition Type	Purpose	Activity
AER Mineral Surface Lease		

Purpose/Activity Options:

- **Enter:** If no change to the purpose/activity, enter as currently approved.
- **Update:** If purpose/activity is outdated, update it to a modern equivalent.
- **Amend:** Through the application, select a different purpose and/or activity which is a change from what is currently approved.

1. **Mandatory:** For each disposition, select the **Purpose** from the drop-down menu, if not already autocompleted from the shapefile.

2. **Mandatory:** For each disposition, select the **Activity** from the drop-down menu, if not already autocompleted from the shapefile.

3. **Mandatory:** Click **Analyze** to begin shapefile analysis. You cannot proceed without first completing this step.

Shapefile analysis may take a few minutes to process.

Once complete, additional tabs will appear if applicable:

Relate Activity and Applicable Incidental Activity Information

View Shapefile Info | Relate Activity | Applicable Incidental Activity Information

or

Associate Plan and Applicable Incidental Activity

View Shapefile Info | Associate Plan | Applicable Incidental Activity Information

Tip:

After shapefile analysis, point your cursor over each cell in the **Disposition Type**, **Purpose**, or **Activity** columns to see the original values.

Disposition Type	Original Value: N/A (MSL043603)	Activity
AER Mineral Surface Lease	Wellsite	PNG Production (MW)
AER Temporary Field Authorization	Incidental Activity	Borrow Pits
AER Temporary Field Authorization	Incidental Activity	Temporary Work Space
AER Temporary Field Authorization	Incidental Activity	Log Deck

Filtering Results

1. Filter results by any column field. Click **Show** on the right side of the pane.

Tip:

Repeat the steps above to filter information in any pane.

Relate Activity

This feature only applies to RTFs (incidental activities) related to a formal parent disposition. The relationship may already be established and autocompleted by the shapefile.

1. **Mandatory:** Select the **check box** beside the RTF that relates to a parent disposition. Select only one RTF at a time.

View Shapefile Info | Relate Activity | Applicable Incidental Activity Information

Shapefile Name	Unique ID	Disposition Type	Purpose
<input type="checkbox"/> Disposition	1	AER Mineral Surface Lease	Wellsite
<input type="checkbox"/> Disposition	2	AER License of Occupation	Access
<input type="checkbox"/> Disposition	3	AER Temporary Field Authorization	Incidental Activity
<input checked="" type="checkbox"/> Disposition	4	AER Temporary Field Authorization	Incidental Activity

2. **Mandatory:** Click **Relate Activity**.

Relate Activity

The Relate Disposition window opens.

Relate Disposition

Would you like to relate this activity to an already approved formal disposition or an activity within this application?

Already Approved | Within Application

Close Save

3. **Mandatory:** Select **Within Application** to relate the activity.

Important:

For amendment applications, only new incidental RTFs can be related to a formal disposition **Within Application**. There are only two possible formal dispositions within the amendment application:

- Disposition being amended
- Associated disposition (if applicable)

Within Application

- a) Select the **check box** beside the related parent disposition that is linked to the incidental RTF(s). There can only be one parent.

- b) Click **Select**.

Select

Select

	Disposition Type	Purpose
<input checked="" type="checkbox"/>	AER Mineral Surface Lease	Wellsite
<input type="checkbox"/>	AER License of Occupation	Access

The window closes. The related parent disposition appears in the main table above its incidental RTF(s). The Activity ID column also displays the associated activity identification number.

Disposition Type	Purpose	Activity ID
AER Mineral Surface Lease	Wellsite	30662687
AER Temporary Field Authorization	Incidental Activity	30662690
AER Temporary Field Authorization	Incidental Activity	30662689

- c) Repeat **steps a) and b)** until all RTF incidental activities have been linked to a parent disposition.
- d) Optional: To revise your entry, select the incidental RTF, you wish to change the relationship for.

<input type="checkbox"/>	Shapefile Name	Unique ID	Disposition Type	Purpose
<input type="checkbox"/>	Disposition	1	AER Mineral Surface Lease	Wellsite
<input checked="" type="checkbox"/>	Disposition	3	AER Temporary Field Authorization	Incidental Activity
<input type="checkbox"/>	Disposition	2	AER License of Occupation	Access
<input type="checkbox"/>	Disposition	4	AER Temporary Field Authorization	Incidental Activity

- e) **Mandatory:** Click **Relate Activity**. The Relate Disposition window opens.

Relate Activity

- i) **Mandatory:** Select **Change Relationship** or **Remove Relationship**.

Change Relationship

Remove Relationship

- **Change Relationship:** Repeat **steps a) and b)**. Click **Save**. Your selection is updated on the Public Land Dispositions table. Save
- **Remove Relationship:** Click **Save**. Your selection is removed from the Public Land Dispositions table. Save
- Optional: Click **Close** to cancel your changes and return to the Public Land Dispositions table. Close

Applicable Incidental Activity Information

This feature applies to the following eligible incidental activities within this application and associated to the same plan as their parent disposition:

- Log deck
- Temporary work space
- Borrow pit
- Push out
- Bank stabilization

Tip:

This section can be completed in three ways:

- Completely or partially autocompleted from shapefile attributes
- Manual entry in the online table
- Autocompleted table from an uploaded spreadsheet (.csv)

1. **Mandatory:** Select the **check box** for the parent disposition with related eligible applicable RTF incidental activities.

View Shapefile Info
Relate Activity
Applicable Incidental Activity Information

<input type="checkbox"/>	Shapefile Name	Unique ID	Disposition Type	Purpose
<input checked="" type="checkbox"/>	Disposition	1	AER Mineral Surface Lease	Wellsite
<input type="checkbox"/>	Disposition	2	AER License of Occupation	Access
<input type="checkbox"/>	Disposition	3	AER Temporary Field Authorization	Incidental Activity
<input type="checkbox"/>	Disposition	4	AER Temporary Field Authorization	Incidental Activity

2. **Mandatory:** Click **Applicable Incidental Activity Information**. The Related Disposition window opens

Applicable Incidental Activity Information

3. **Mandatory:** Complete the table if not already autocompleted.

Tip:

The information icon in each column header provides more detail about each field.

Option 1: Manually enter information for the following:

- a) **Area (ha):**

- If the area exceeds size parameters for an applicable incidental activity, no further entry is required. Proceed to **Validate Entry**.
- If the area meets size parameters for an applicable incidental activity, proceed to the next step.

Area (ha)

0.040

- b) **Free of Conflict:** Select **Yes** or **No** from the drop-down menu.

- c) **Adjoins Disposition:** Select **Yes** or **No** from the drop-down menu.

- d) **Meets Spacing:** Select **Yes** or **No** from the drop-down menu if the area meets size requirements for the following activity types: log deck, borrow pit, and push out.

Option 2: Upload a spreadsheet (.csv).

- a) Click **Download Template** in the upper left corner of the pane.

- b) The template will download. **Open** and **save** the file.
- c) Repeat **steps a) to d)** in **Option 1** to complete the spreadsheet.

- d) Click **Import Data from a .csv** in the upper left corner of the pane.

- e) Browse for the file and upload it to OneStop. OneStop will transfer the imported data to the online Related Dispositions table.

Area (ha)	Free of Conflict	Adjoins Disposition	Meets Spacing
0.050	Yes	Yes	Yes
0.850	Yes		

- f) **Mandatory:** Select **Save** to save your entry and return to the main table, or **Close** to return to the main table without saving your entry.

- g) Optional: Click **Validate** or **Save** on the Public Lands Amendment – Overview screen to run the analysis.

- h) View the results in the **Applicable Incidental** column in the Public Land Dispositions table.

Related Activity	Plan Name	Survey Plan ID	Area	Applicable Incidental
	Plan1.pdf			No
	Plan1.pdf			No
30674732	Plan1.pdf		0.06	Yes
30674732	Plan1.pdf		0.76	No

You may also view it in the **Applicable Incidental Activity Information** tab in the Related Dispositions table.

Adjoins Disposition	Meets Spacing	Applicable Incidental
Yes	Yes	Yes
		No

Plan Information

The Plan Information pane will display following a successful shapefile analysis of single or multiple plans.

Make sure the plan type is correct. If the draft has been saved corrections can only be made by deleting the draft. Once submitted corrections cannot be made.

Submission Number: 1429575

Plan Number: 15442

Plan Type: IHS IMPORT

Update Plan Type: [Dropdown]

Buttons: Close, Save

- Select the **Updated Plan Type** using the drop-down menu.

Update Plan Type

- Conventional Survey
- Sketch

- Select **Close** to return to the main screen without saving your update, or select **Save** to update your plan type and return to the main screen.

Buttons: Close, Save

Note: You cannot proceed with the amendment until you update the plan type.

Plan Number	Plan Type	LTO Number	Status
86615	IHS IMPORT		Active

Plan updates are required

Important:

IHS plan types need to be updated in OneStop to reflect whether they are a sketch or survey.

Once the plan type has been updated and saved, it cannot be changed. Ensure your plan type selection is accurate before saving.

Replace

- Use the **Replace** feature for most amendments that consist of one plan of record being amended (e.g., adding, deleting or modifying lands).
- Use the **Replace** feature when amending one plan in a group of plans that belong to a disposition (itemized plans).

- Plan replacement is only optional when using another feature such as “Add” or “Remove” for multiple plans.

- Select the **check box** beside the plan you wish to replace. Click **Replace**.

Submission Number	Plan Number	Plan Type	LTO Number	Status	Version Date
